PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 6 years of experience building secure, high-availability backend services and cross-platform applications for fintech and enterprise clients across the UAE and GCC. Delivered 20+ production applications with 500K+ combined downloads; engineered REST APIs handling 10K+ daily requests at 99.9% uptime; integrated \$1.2M+ in secure payment processing (Stripe, Apple Pay) with zero security breaches. Scrum Master Certified with hands-on experience mentoring engineers, leading Agile delivery, and owning systems end-to-end — from architecture and API design to cloud deployment and performance optimization. Actively builds with AI: integrating LLM APIs (OpenAI, Gemini) into production applications and using AI-assisted development tools to accelerate delivery.

CORE SKILLS

- **Backend Engineering:** Laravel (PHP), Node.js, REST & GraphQL APIs, microservice and event-driven design, MySQL, Redis
- **Cloud & DevOps:** AWS (EC2, S3, Lambda exposure), Firebase, CI/CD pipelines, containers, performance tuning and caching
- **Payments & Integrations:** Stripe, Apple Pay, PCI-aware payment flows, Google Analytics, secure API integration for fintech products
- **AI & Emerging Tech:** LLM API integration (OpenAI, Gemini), in-app chatbot features, AI-assisted development (GitHub Copilot, Claude, Cursor)
- **Mobile & Frontend:** Flutter (iOS/Android/Web), React Native, SwiftUI, Kotlin, Java (Android), BLoC, GetX
- **Leadership & Delivery:** Agile/Scrum (SMC certified), code review, mentoring, stakeholder communication, architecture reviews
